Crocodiles and alligators belong to a group of reptiles called crocodylians, which are the largest of the living reptiles. Of the 23 different species of crocodylians in the world, 2 species are native to the United States, and south Florida is the only place where both of these species coexist.

American Crocodile: Species Profile - Everglades National ...

Alligators and crocodiles have similar appearances,

Where To Download Crocodiles Alligators

but there are ways to tell them apart. Alligators are black in color with a broad, rounded snout, while crocodiles have a more grayish or green appearance and a narrow, tapered snout. When an alligator's mouth is closed, only its upper teeth are exposed; in contrast, a crocodile's fourth tooth ...

70-year-old crocodile spotted in Punta Gorda backyard

Although they appear similar, crocodiles, alligators and the gharial belong to separate biological families. The gharial, with its narrow snout, is easier to

Where To Download Crocodiles Alligators

distinguish, while morphological differences are more difficult to spot in crocodiles and alligators. The most obvious external differences are visible in the head, with crocodiles having narrower and longer heads, with a more V-shaped than a U-shaped snout compared to alligators and caimans.

Crocodile - Wikipedia

An alligator, 4 to 7 feet long, dragged the victim under water in the Seven Seas Lagoon about 9pm on June 14, 2016, at Disney's Grand Floridian Resort & Spa just outside ofT Orlando, Florida. His father and
