Description. In October 1933, some nine months after Adolf Hitler was appointed chancellor of Germany, the German government announced its withdrawal from the League of Nations. The ostensible reason was the refusal of the Western powers to acquiesce in Germany ' s demands for military parity. With this curt letter, dated October 19, 1933, Foreign Minister Konstantin Freiherr von Neurath informed the League of Nations secretary-general, Joseph Avenol, of Germany ' s withdrawal.

"The German League for the Prevention of Women's Emancipation: Antifeminism in Germany, 1912-1920 presents a detailed account of the activities of the German League for the Prevention of Women's Emancipation from its beginnings in 1912 to its dissolution in 1920. It underscores the impact of this conservative, keenly nationalist, and increasingly anti-socialist, anti-Semitic and anti-Catholic organization as it targeted primarily the moderate bourgeois Federation of German Women's Associations and the conservative German-Evangelical Women's League. This book also documents motives for membership, the League's philosophy, and the political and social activism used by the League to achieve its aims. Based on a membership list reconstructed by the author, it offers a demographic analysis of League members and officers including an evaluation of the League's geographic distribution and the extent of women's participation in it." --Book Jacket.

Through an examination of the Pan-German League - one of Germany's most prominent radical nationalist groups - and its connections to a range of right-wing organizations between 1918 and 1939, this study provides important new insights into the political fragmentation of the German Right and the Nazi seizure of power. It is the first book to examine in detail the Pan-German League's political activities in the Weimar and Nazi periods. Unlike existing studies that focus primarily on the League's ideology and public pronouncements, this book analyzes the organization's political connections with other prominent right-wing groups. Specifically, it explores Pan-German efforts to reshape the landscape of right-wing politics in the wake of German defeat in World War One and details how the League's actions undermined moderate conservatives and helped to radicalize Germany's largest conservative party, the German National People's Party (DNVP), at the local and national level. The book also sheds new light on the surprisingly contentious relationship between the Pan-Germans and the Nazi Party between 1920 and 1939. This study of the Pan-German League fits with more recent scholarship that emphasizes the political fragmentation of the German Right as an important precondition for the ultimate triumph of Hitler and Nazism in 1933. It will attract readers with an interest not only in the Weimar Republic and Nazi Germany, but also wider issues of German/Central European history, radical nationalism, conservative and right-wing party politics, and the general political history of interwar Europe.

In 1919 the Treaty of Versailles stripped Germany of its overseas colonies. This sudden transition to a post-colonial nation left the men and women invested in German imperialism to rebuild their status on the international stage. Remnants of an earlier era, these Kolonialdeutsche (Colonial Germans) exploited any opportunities they could to recover, renovate, and market their understandings of German and European colonial aims in order to reestablish themselves as "experts" and "fellow civilizers" in discourses on nationalism and imperialism. Revenants of the German Empire: Colonial Germans, Imperialism, and the League of Nations tracks the difficulties this diverse group of Colonial Germans encountered while they adjusted to their new circumstances, as repatriates to Weimar Germany or as subjects of the War's victors in the new African Mandates. Faced with novel systems of international law, Colonial Germans re-situated their notions of imperial power and group identity to fit in a world of colonial empires that were not their own. The book examines how former colonial officials, settlers, and colonial lobbies made use of the League of Nations framework to influence diplomatic flashpoints including the Naturalization Controversy in Southwest Africa, the Locarno Conference, and the Permanent Mandates Commission from 1927-1933. Sean Wempe revises standard historical portrayals of the League of Nations' form of international governance, German participation in the League, the role of interest groups in international organizations and diplomacy, and liberal imperialism. In analyzing Colonial German investment and participation in interwar liberal internationalism, the project challenges the idea of a direct continuity between Germany's colonial period and the Nazi era.
