illustrations. Its main purpose is to help pre-service and practicing teachers design courses for teaching academic writing and to do this as efficiently and effectively as possible. Bringing together the what and the how-to with research-based principles, what sets this book apart is its overarching focus on language pedagogy and language building. Part 1 examines curricular foundations in general and focuses on what is socially valued in L2 writing and pedagogy at school and at the college and university level. Part 2 is concerned

with the nitty-gritty?—the daily realities of curricular design and classroom instruction. Part 3 takes a close look at the key pedagogical ingredients of teaching academic L2 writing: vocabulary and collocations, grammar for academic writing, and down-to-earth techniques for helping L2 writers to organize discourse and ideas. The Appendix provides an extensive checklist for developing curricula for a course or several courses in language teaching.

Audit professionals are valued members of society and are expected to be both skilled and ethical in their decision-making. The role of the auditor extends far beyond that of counting beans by demanding a social and political awareness, a technical knowledge, ethical principles and relationship skills. In addition, due to the team-oriented nature of

the audit approach, auditors require strong team-building and interpersonal skills. This book offers expert descriptions of, and insights into, how such skills and responsibilities can be inculcated in tertiary education and professional training environments. Unlike other books which focus on auditing as a technical process, this volume examines auditing from a teaching and learning perspective. Expert contributors provide authoritative insights into an audit education which is embedded in accounting practice. The book's

descriptions of these insights into improving education for future audit professionals may allow the introduction of new and challenging fields of enquiry. Audit Education will be of great interest to educators in tertiary institutions, trainers in professional firms, and key individuals in accounting professional bodies seeking to ensure their members possess acceptable levels of attainment for admission and continued membership. This book was originally published as a special issue of Accounting Education: an international journal.
