moody and messy, rambunctious with his brothers, contrary just to prove a point, and perpetually at odds with his parents. Yet somehow, this normal boy became one of the youngest people on whom Dr. Walter Freeman performed his barbaric transorbital-or ice pick-lobotomy. Abandoned by his family within a year ...

Him Out For ...~~

Writing a memoir means you're author and subject, researcher and storyteller, narrator and audience. That's a lot to ask of any writer, though a good way to begin the challenge of writing a memoir is to start a list of the most memorable events of your life. Don't start on the actual book manuscript until you have at least a page filled with things that seem worthy of sharing – moments ...
