The ReSPECT process creates personalised recommendations for a person's clinical care and treatment in a future emergency in which they are unable to make or express choices. These recommendations are created through conversations between a person, their families, and their health and care professionals to understand what matters to them and what is realistic in terms of their care and treatment.

Respect is awarded once the item is completed and not during the smithing process. If smithing an item would increase the player's respect over 100%, any extra respect is lost; for example, if a player has 99% respect, and smiths an item that gives 30,000 experience, they will have 100% respect after completing the item, not 102%.
