"Smarter is an essential read. It's a riveting look at the birth of a new science as well as a user's manual for anyone who wants to be better at solving problems, learning new things, and coming up with creative ideas."—Daniel H. Pink, author of Drive and A Whole New Mind "A clear-eyed but encouraging view of cognitive enhancement."

~~Smarter: The New Science of Building Brain Power - Amazon—~~

The new science of building brain power may be said to have truly kicked off in 2002. In that year, Swedish psychologist Torkel Klingberg performed a study wherein he found that subjects diagnosed with ADHD improved in both attention span and general intelligence after undergoing a brain-training program that involved working-memory exercises (it was this very study that kick-started the brain training industry).

The new study showed that people can increase their “fluid” intelligence through training. Hurley, who grew up to become an award-winning science journalist, first explored the topic in The New York Times Magazine. In Smarter, he digs deeper by meeting with the field’s leading researchers—and becoming a human guinea pig. After just three months of playing computer brain-training games, joining a boot-camp exercise program, learning to play the Renaissance lute, practicing mindfulness ...
